

EDGE^{V11}

PACKING A SERIOUS PUNCH!

OZONE[®]

EDGETM

DESIGN FEATURES:

OZONE[®]

A person is kiteboarding on a dark, choppy sea. An orange kite with the word "EDGE" on it is flying in the sky. The person is in the middle ground, holding the kite's lines. In the foreground, there is a wooden railing. In the background, a city skyline is visible across the water.

The Edge is a genuine icon, delivering a mind-bending free ride and big air experience with speed, power and performance. True to its name, the Edge has long proven itself to be at the forefront of the inflatable kite performance sector.

EDGE[™]

DESIGN FEATURES:

OZONE[®]

All New Rip-Stop Material Combination

Now in its eleventh version, the Edge takes the legendary Ozone feeling to the next level with our new rip-stop material combination. The new rip-stop canopy material has an advanced ultra flex coating improving feedback in gustier conditions making for a smoother ride.

EDGE[™]

DESIGN FEATURES:

OZONE[®]

Super Tough Dacron

The new technical rip-stop dacron is super tough, used on the Leading Edge and Struts it improves strength, durability and longevity.

All New Fast Flow One Pump

Our new Fast Flow One-Pump Inflation System makes set up and packing quick and easy. It features single point inflation/deflation and a high air flow rate between the Struts and Leading Edge, with clips to seal the hoses to prevent unwanted air flow in case of damage.

EDGE^{VII}

DESIGN FEATURES:

OZONE[®]

Altitude...

The Edge VII is a user-friendly powerhouse that anyone can handle. If you want to ride fast, send it for massive air or kite loops for insane hang time to reach altitudes reserved only for the gods, the Edge is for you.

EDGE^{VI}

DESIGN FEATURES:

OZONE[®]

Supercharged...

Easy to access performance comes naturally through this super-charged free ride kite, it is an explosive high adrenaline machine that will leave you in withdrawal after every session.

EDGE[™]

DESIGN FEATURES:

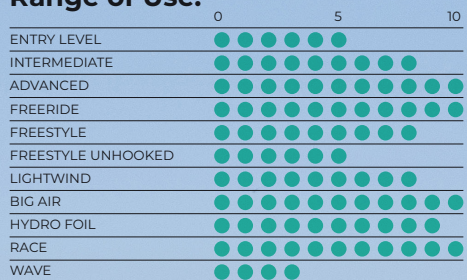

OZONE[®]

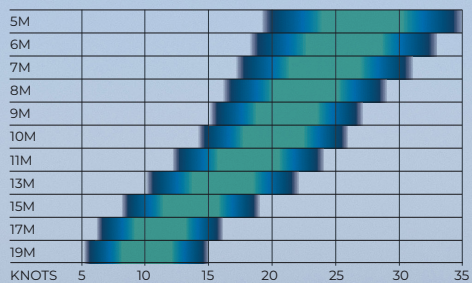

Maximised Satisfaction

It drives fast through turns making it easy to send it big and maximise satisfaction from your free ride sessions. The bar feeling is smooth as the kite transitions through angle of attack range, helping during take off to perfectly time your jumps.

Range of Use:

Wind Range:

■ SWEET SPOT ■ INTERMEDIATE TO ADVANCED ■ ADVANCED

Wind range is indicative only based on an average rider weight of 80kg. Actual range will vary based on rider skill level and type of board used.
