

MAKE LIGHT WIND RIDING A BLAST ON ANY BOARD!

Offering greater range, faster flying speeds and more reactive handling, the all-new Zephyr V8 Ultra-X further proves itself a class leading light wind freeride machine for any rider who wants to expand their time on the water, whatever their board of choice.

WHAT'S NEW?

Everything. When we set out to add more performance to the Zephyr, we specifically wanted to make riding in light winds easier for everyone, more fun and something you could do more often.

The introduction of 'Ultra-X' lightweight materials has seen this powerful 17m kite experience a 17% weight reduction, which is crucial to its undoubtedly more sporty handling. The Zephyr V8 Ultra-X now also features more shaping detail that contributes to the cleaner overall sail profile.

The V8 now delivers more forward drive and faster response in even lighter winds, while also offering more top end range comfort too, making it a seriously useful addition to your quiver.

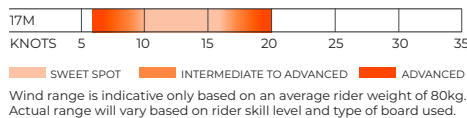

- LIGHT WIND SPECIFIC FREERIDE MACHINE
- HUGE WIND RANGE, 6-20 KNOTS
- NOW 17% LIGHTER AND MORE RESPONSIVE WITH ULTRA-X MATERIALS
- TIGHT RADIUS TURNING FOR REACTIVE, FUN SESSIONS
- EASY TO FLY AND RE-LAUNCH EVEN IN LIGHT WINDS

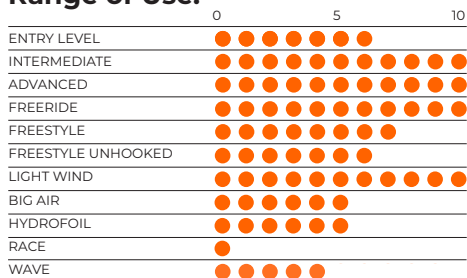

Features:

- Factory Ownership Advantage
- Designed with OZ-CAD
- Teijin TechnoForce Double Ripstop
- Lightweight canopy
- Performance Dacron - Lighter and Stiffer
- 4-line Pulley-less System
- Continuous Curve Leading Edge
- Transverse Sail Shaping
- Internal reinforcements
- Overlap Flat Seams
- Load Distribution Panels
- Direct Connect Struts
- Reinforced Leading Edge and Struts
- Reinforced Trailing Edge
- Low Profile Aerodynamic Scuff Pads
- Unique bladder construction
- Anti-Snag Line Deflectors
- Fast Flow One-Pump Inflation System
- Anti-Flap Soft Battens
- Back-line trimming options
- Fool Proof Line Connectors
- High Performance Bridle Lines
- Water Kite Technical Bag
